**11:00 AM** MEASURE AND REPORT OUTCOMES

**11:30 AM** OPTIMIZE FOR YOUR PEOPLE

**12:00 PM** LUNCH HOSTED BY AXONIUS

## QUESTIONS TO COME WITH

Spend ten minutes on these before Tuesday. Your answers feed the exercises, and you will get more from the morning.

- 1 Which AI tools are people in your organization using today, approved or not?
- 2 What task would you most like to hand to AI, if you knew it was safe?
- 3 What data would you never want leaving your organization?
- 4 Do you have an AI policy, a draft, or a committee? Who owns it?
- 5 If leadership asked tomorrow how AI is being used, what could you show them?

## WHAT TO BRING

- ◆ A charged phone or laptop. Every exercise runs live on your own device
- ◆ Your questions, and a colleague's if they could not make it
- ◆ Business cards, if you carry them

### BEFORE TUESDAY

Food preferences or allergies? Add them when you register at [events.peritix.ai](https://events.peritix.ai), or email [events@peritix.ai](mailto:events@peritix.ai) by Friday, October 23.

WHO YOU'LL MEET

# OUR SPONSORS AND YOUR CONTACTS.

Our sponsors make the morning free to attend. They join as peers: no pitches, and no contact lists shared.

Check Point Software Technologies is a global cybersecurity company that protects organizations across networks, cloud, email and endpoints. Its teams work with public-sector organizations on securing how people use new technology, AI included. Check Point joins the workshop as a peer, so bring your security questions.

Axonius helps organizations see and manage every asset in their environment, from devices and users to cloud services and software. That visibility is where any answer to "what AI is in use here" starts. Axonius is hosting lunch, so bring your questions to the table.

## DAY-OF CONTACTS

### AARON WELCH

Founder, Peritix  
Cell 423-505-9999

### TIM MORELAND

Peritix  
On site all morning
